

One Heart Healing Essentials Aura Care Kit

Most dis-ease begins in the subtle, unseen realms in what is called our Aura. Our Aura is comprised of the sum total of the subtle energies making up our etheric, emotional, mental and soul (as distinct from Spirit) bodies. If imbalances and damage on these levels are left unattended, dis-ease eventually becomes physical disease.

Regular use of our three Aura sprays will keep your energies balanced on the creative, formative, protective levels of your being... so that you experience harmony and well being in your life.

Get your Aura Kit now and practice true preventive therapy for your own high level wellness... health way beyond the mere absence of disease.

Aura Care Kit Feel Good! Be Happy!

WHAT IT IS & HOW THEY WORK

Our Aura Care Kit consists of three sprays (spritizers) that combine essential oils and flower essences. The three sprays are:

- **Aura Cleanser**
- **Aura Healer**
- **Aura Protector**

Aura Cleanser clears & cleanses unwanted energies such as negative thoughtforms, environmental pollution, negative emotions, etc. Helps restore mental clarity & overall balance by dispelling confusion. Wonderful for cleansing rooms, offices & healing spaces in between clients.

Aura Healer heals auric damage due to emotional wounds, drug abuse, and surgery. Expels negative & trapped energies in the aura. Great to assist in any healing process. Speeds recovery from surgery & any illness.

Aura Protector creates a protective shield around us preventing us from picking up negative energies. Very helpful when we are feeling vulnerable or in a weakened state, mentally, emotionally or physically. Protects us whenever we are faced with hostile environments or individuals.

By spraying each of the three sprays in the order listed 7 times above your head & allowing the mist to cascade over your body, front & back, you will be giving yourself a complete aura care treatment. You can also clear room environments, and start and end client treatments. Recommended to use twice daily for optimal results or as often as desired in specific needed circumstances.
